

Standard Shipping and Handling

- We are proud to offer **Free Standard Shipping** of all of our products. Orders are processed once payment authorization and verification have been obtained. Orders will be sent to our fulfillment partners in one business day and usually it takes another one to two business days to be shipped out. Orders shipped via standard delivery typically arrive in 3 to 5 business days (Monday through Friday, excluding holidays) for the United States.
- Unless otherwise specified, brite-View sells and ships products only to US domestic postal addresses (including Alaska, Hawaii, Puerto Rico, and Post Office Box). However, **APO/FPO/DPO addresses are not allowed**. If your shipping addresses are not allowed for our standard free shipping, we will cancel and refund the order without further notice.
- **Canadian / Brazilian Orders (International shipping fee applied)**
 - Shipping method USPS Priority Mail International with Tracking Number Provided.
 - USPS estimates that such delivery usually takes 6-10 days after the item is shipped, depending on the custom declaration process which is not controlled by USPS or brite-View.
 - Defective units can only be returned for a refund, exchanges are not available.
 - Orders shipped outside of the US will probably be charged customs fees (taxes, duties, processing fees, brokerage fees, etc.) when they arrive. We have no control over these fees. If you are not familiar with the customs laws and fees in your country, please check with your local customs office for more information.
